WHY CHOOSE NIAUX 200?

The *Niaux 200* line of coulters and disk blades are the result of extensive research and development efforts in metallurgy and heat treatment. Special boron-carbon steel along with patented transitional heat treatment lead to this consistently longer wearing blade. Forges de Niaux is the only manufacturer in the world to offer disk blades with hardness levels up to 58 HRC, outperforming the competition.

BACKED WITH A LIFETIME REPLACEMENT WARRANTY AGAINST BREAKAGE*

LONG-LASTING

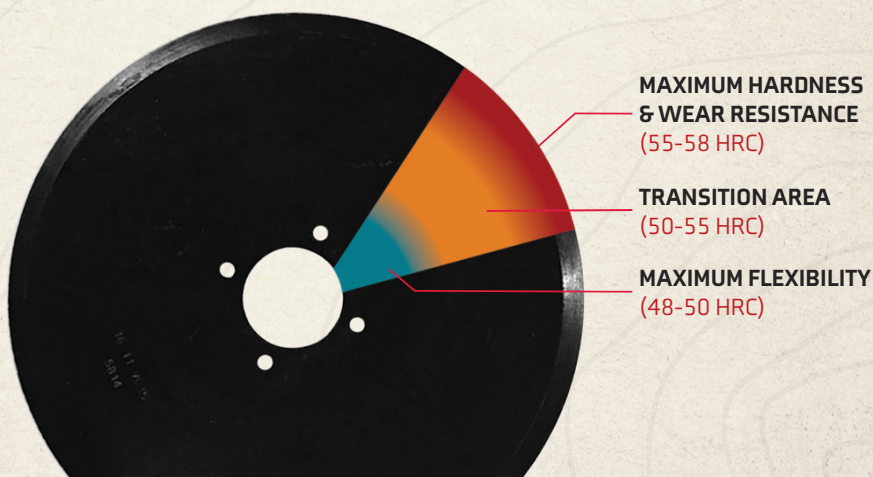

Thanks to increased hardness in the working area, *Niaux 200* disks have a 20-40% longer wear than other disks on the market.

EFFECTIVE

Niaux 200 disk blades ensure a perfect cutting quality throughout their lifetime with less dulling on the leading edge.

ROBUST

Niaux 200 disk blades are very resilient and are designed to resist extreme shocks and deformations.

500-200-1000

Bourgault MRB® III, 3720 Coulters Drill

OEM Part #	2085-04
Disk Type	Flat Coulters Single Bevel
Dimensions	20-1/2" x 5mm
Pilot Hole Size	3.660"
# of Bolt Holes	4 Beveled

500-200-1015

Bourgault 3820 Coulters Drill

OEM Part #	2085-05
Disk Type	Flat Coulters Single Bevel
Dimensions	20-1/2" x 5mm
Pilot Hole Size	3.660"
# of Bolt Holes	4

500-200-1035

Bourgault MRB® I / Series 20

OEM Part #	6407-25
Disk Type	Flat Coulters Dbl Bevel
Dimensions	18-3/8" x 4.5mm
Pilot Hole Size	3.645"
# of Bolt Holes	4

500-200-1040

Bourgault MRB® II / Series 25

OEM Part #	6717-99
Disk Type	Flat Coulters Dbl Bevel
Dimensions	20-3/8" x 4.5mm
Pilot Hole Size	3.645"
# of Bolt Holes	4
