# Lifetime Replacement Warranty\*

## CONSISTENTLY LONGER WEARING BLADES.

The *Niaux* 200 line of coulters and disk blades are the result of extensive research and development efforts in metallurgy and heat treatment. Special boron-carbon steel along with patented transitional heat treatment lead to this consistently longer wearing blade.

Forges de Niaux is the only manufacturer in the world to offer disk blades with hardness levels up to 58 HRC, outperforming the competition.

- MAXIMUM HARDNESS & WEAR RESISTANCE (55-58 HRC)
- TRANSITION AREA (50-55 HRC)
- MAXIMUM FLEXIBILITY (48-50 HRC)

## LONG LASTING. EFFECTIVE. ROBUST.

Thanks to increased hardness in the working area, *Niaux* 200 disks have a 20-40% longer wear life than competitor disks, perfect cutting quality throughout their lifetime, and less dulling on the leading edge. *Niaux* 200 disk blades are resilient and designed to resist extreme shocks and deformations.

### 500-200-1000

OEM Part #	2085-04
Disk Type	Flat Coulters Single Bevel
Dimensions	20-1/2" x 5mm
Pilot Hole Size	3.660"
# of Bolt Holes	4 Beveled

### 500-200-1015

OEM Part #	2085-05
Disk Type	Flat Coulters Single Bevel
Dimensions	20-1/2" x 5mm
Pilot Hole Size	3.660"
# of Bolt Holes	4

### 500-200-1035

OEM Part #	6407-25
Disk Type	Flat Coulters Double Bevel
Dimensions	18-3/8" x 4.5mm
Pilot Hole Size	3.645"
# of Bolt Holes	4

### 500-200-1040

OEM Part #	6717-99
Disk Type	Flat Coulters Double Bevel
Dimensions	20-3/8" x 4.5mm
Pilot Hole Size	3.645"
# of Bolt Holes	4

\*Lifetime warranty on breakage due to manufacturer defect. Warranty is limited to the failed part and does not cover any consequential damages. MRB®, Mid Row Banders® and Mid Row Bander® are Trademarks of Bourgaault Industries Ltd. and used with permission
