# Fertilizer Knives

## MORE OPTIONS. SMARTER FARMING.

Fertilizer applicator knives fit C-Shank and Edge-On Shank machines, including Bourgault, CNH, DMI, John Deere, Salford, Summers, Tormaster, Blu-Jet, and Unverferth.

Conventional and heavy-duty openers give you options for applying anhydrous ammonia, liquid, dry, or a combination of fertilizer products. Choose from bolt-on or knock-on (*Speed-Loc™*) knives with welded or replaceable tips in regular and non-freeze NH<sub>3</sub> options.

600-TIP-3011

## FREEZING AN ISSUE? CHECK OUT NON-FREEZE NH<sub>3</sub> KNIVES.

Non-freeze fertilizer knives deliver NH<sub>3</sub> through an engineered nylon insert (as shown to the right), insulating the opener to prevent build-up on the knife, reduce ground disturbance, and minimize gassing off. Available in bolt-on and *Speed-Loc* Quick Change options with welded or replaceable tips.
