Richmond Brothers Equipment

BUILT RUGGED FOR SUPERIOR ABRASION & IMPACT RESISTANCE.

The Richmond Brothers Equipment line of ripper points is designed to stand up in adverse, rocky conditions with little to no damage or breakage and has outlasted competitive points in side-by-side field testing. Wear protection is built into the ripper design, so when it's time to change points, it's fast, easy, and you can reuse attaching hardware.

The high center crown design of Richmond cast cultivator sweeps gives an overall smoother field finish with considerably less slabbing in sticky conditions. Sweeps have an aggressive point and a more durable cutting edge for excellent weed-cutting and an unbeatable wear-life.
