MAX LIFE™ TUNGSTEN CARBIDE

Scrapers

LONGER WEAR LIFE. EXCEPTIONAL VALUE.

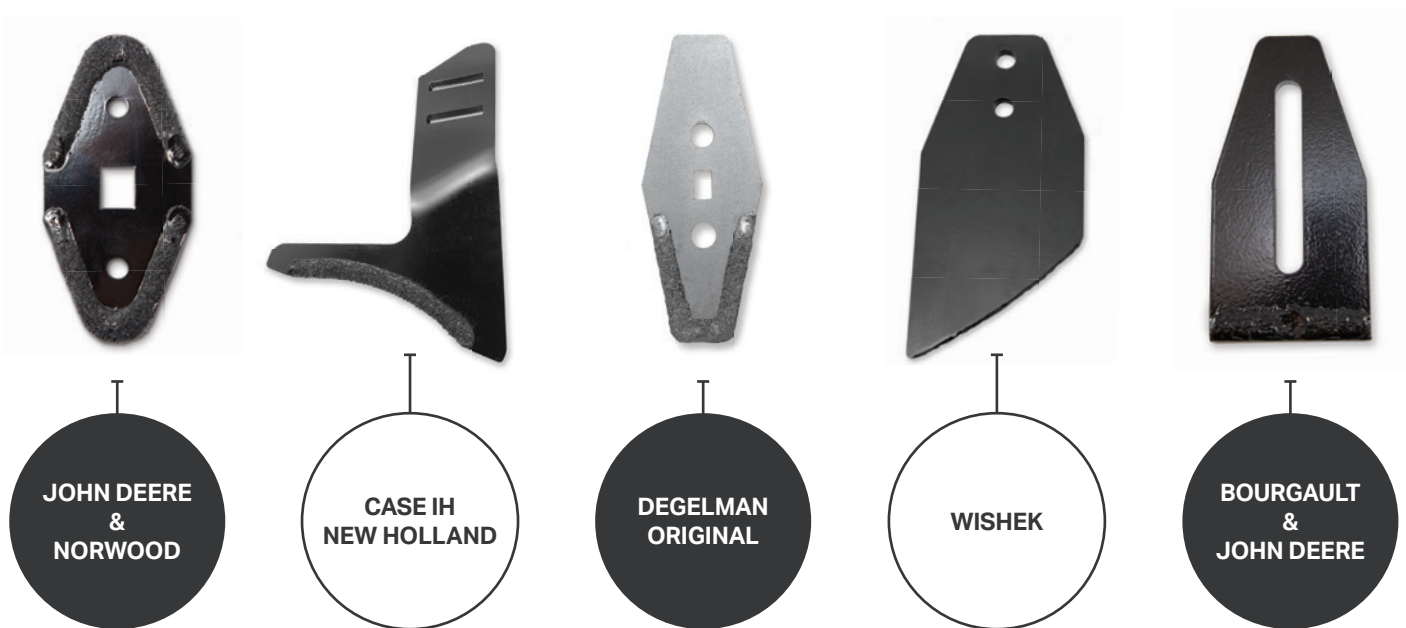

MAX LIFE™ Scrapers have weld-infused tungsten carbide applied to high wear areas creating a tougher, longer-wearing product over regular hard-surfaced scrapers.

Scrapers are easy to install on machines that do not have a scraper using our custom scraper arm assembly. Currently available for Bourgault SE, QDA & XTC.

IMPROVED PERFORMANCE. REDUCED COSTS.

MAX LIFE™ Scrapers are instrumental in keeping disks and packer wheels clean and free of debris. Clean packer wheels maintain a consistent working depth and allow seeding equipment to precisely place seed and fertilizer for better emergence, a uniform crop and reduced seed-per-acre input ratio. Clean equipment also requires less horsepower to pull, saving on fuel consumption.
