

TITAN OPENER SYSTEM

HORIZONTAL & VERTICAL SEED/FERTILIZER SEPARATION

620-ASY-5070

628-ASY-5010

688-ASY-5010

694-ASY-5070

The Titan series provides both horizontal and the most vertical separation between seed and fertilizer. This system can be customized to fit your needs. For a more in depth look at the customizations offered please visit our website www.tillagetools.com and use the Titan Series Customizer.

The Titan Series also offers:

- 1/2" wide fertilizer knife for lower disturbance and more precise fertilizer placement.
- Adjustable seed boot providing you the flexibility to set the depth of the fertilizer from 3/4" to 1-1/2".
- Three strategic carbide locations for additional wear life. Hard facing is placed on key wear points that don't have carbide.
- Modular design allowing for replacement of worn parts instead of the entire opener.

620-TIP-0510 TIP SHOWN USING 620-SSH-1000 SEED SHOE

Drawing for illustration purposes only. All measurements shown are approximate. Results may vary with multiple factors including soil conditions, ground speed, application rates, fan speeds and more. In less than ideal conditions, mixing between seed and fertilizer may occur. For more information please refer to precautions and risk factors on page 22-23.

For a more detailed view of these openers see page 124-125.
